

Have you visited our wiki space recently?

Our wiki space can be found at the following address:

<http://stclairwaveriders.wikispaces.com/>

or alternatively you can find it by navigating through the school website.

We regularly add to this with children's writing, photographs, powerpoints etc. The children are learning how to place feedback on each other's writing and we'd really like to encourage you to do this too. We try to give 2 stars (i.e. 2 comments about what the writer has done well) and 1 wish (i.e. something they could work on for next time).

We warmly welcome Martina Black as our new teacher in Room 8 and look forward to having her as part of the middle team.

Practical & fun ways you can help at home:

- * play board games that involve counting (e.g. Yahtzee, snakes and ladders, junior Monopoly, last card etc)
- * do some baking and ask your child to help with measuring
- * help your child to tell the time
- * play spelling & thinking games (e.g. junior scrabble, I-spy, pictionary, junior crosswords, card memory etc)
- * encourage imaginative play (e.g. dress-ups, lego, making up & telling stories)
